ARCOAT COATINGS CORPORATION

Installers of High Performance Protective Coatings Since 1957

Polished Concrete Floors

Manufacturers, Big Box Stores, Institutions, Medical Facilities, and Processing Plants are discovering that Polished Concrete Floors are the perfect floor to install in many areas of their facilities.

Advantages of Polished Concrete Floors:

- Low Cost compared to other floor systems
- Long Lasting
- Low Maintenance
- Eliminates Dusting
- Good Traction
- Does NOT lift, peel, or flake
- Attractive
- LEEDS credits

What is Polished Concrete?

Polished Concrete is concrete that is ground with progressively finer diamond pads and has been treated with a chemical densifier that increases the hardness of the floor to produce a more attractive, more durable, easier to clean, and longer lasting floor than regular concrete.

Don't Just Coat It, **ARCOAT It!**TM

Can Any Concrete Floor Be Polished?

If the concrete is sound, solid, and sufficiently hard, it can be polished. Soft concrete, wavy floors, or floors that need a great deal of patching may not be the right floor for polishing.

Call us today and we will conduct a MOH's Hardness test on your floor and give you an honest appraisal of your options. **877-727-2628**

How Much Does Polished Concrete Cost?

Installations can average as low as \$2 per square foot to \$6 per square foot depending on the condition of the slab, the level of shine, finish desired and size of the installation.

Call now and we will be happy to test your concrete and provide various pricing options. **877-727-2628**

**Arcoat also installs Epoxy, Urethane, and Fast Curing MMA Floor Systems.
Call us today to find out which Floor System is best for you. 877-727-2628**
